About us

GasiT is a member of FleeTech, S.A. and Smart Transaction. Our solution incorporates the most advanced israelites and mexican technologies in the world on Petrol and fuel control for fleets. With extensive experience of more than 20 years in the global market, Gasit offers the best solution for gas station owners and fleet managers.

About GasiT

GasiT is the quickest, most efficient and innovative in the market to save on fuel consumption across its fleet. Thanks to our technology and experience in the fuel control, GasiT will allow your company to reduce costs and increase profits in the short term.

GasiT for everyone

The versatility of GasiT solutions allowing its technology to be used by everyone especially by:

Families

- It allows you to load fuel without using cash or credit card.
- Improving the safety of driver, making the process faster, automated and paperless.

Fleets

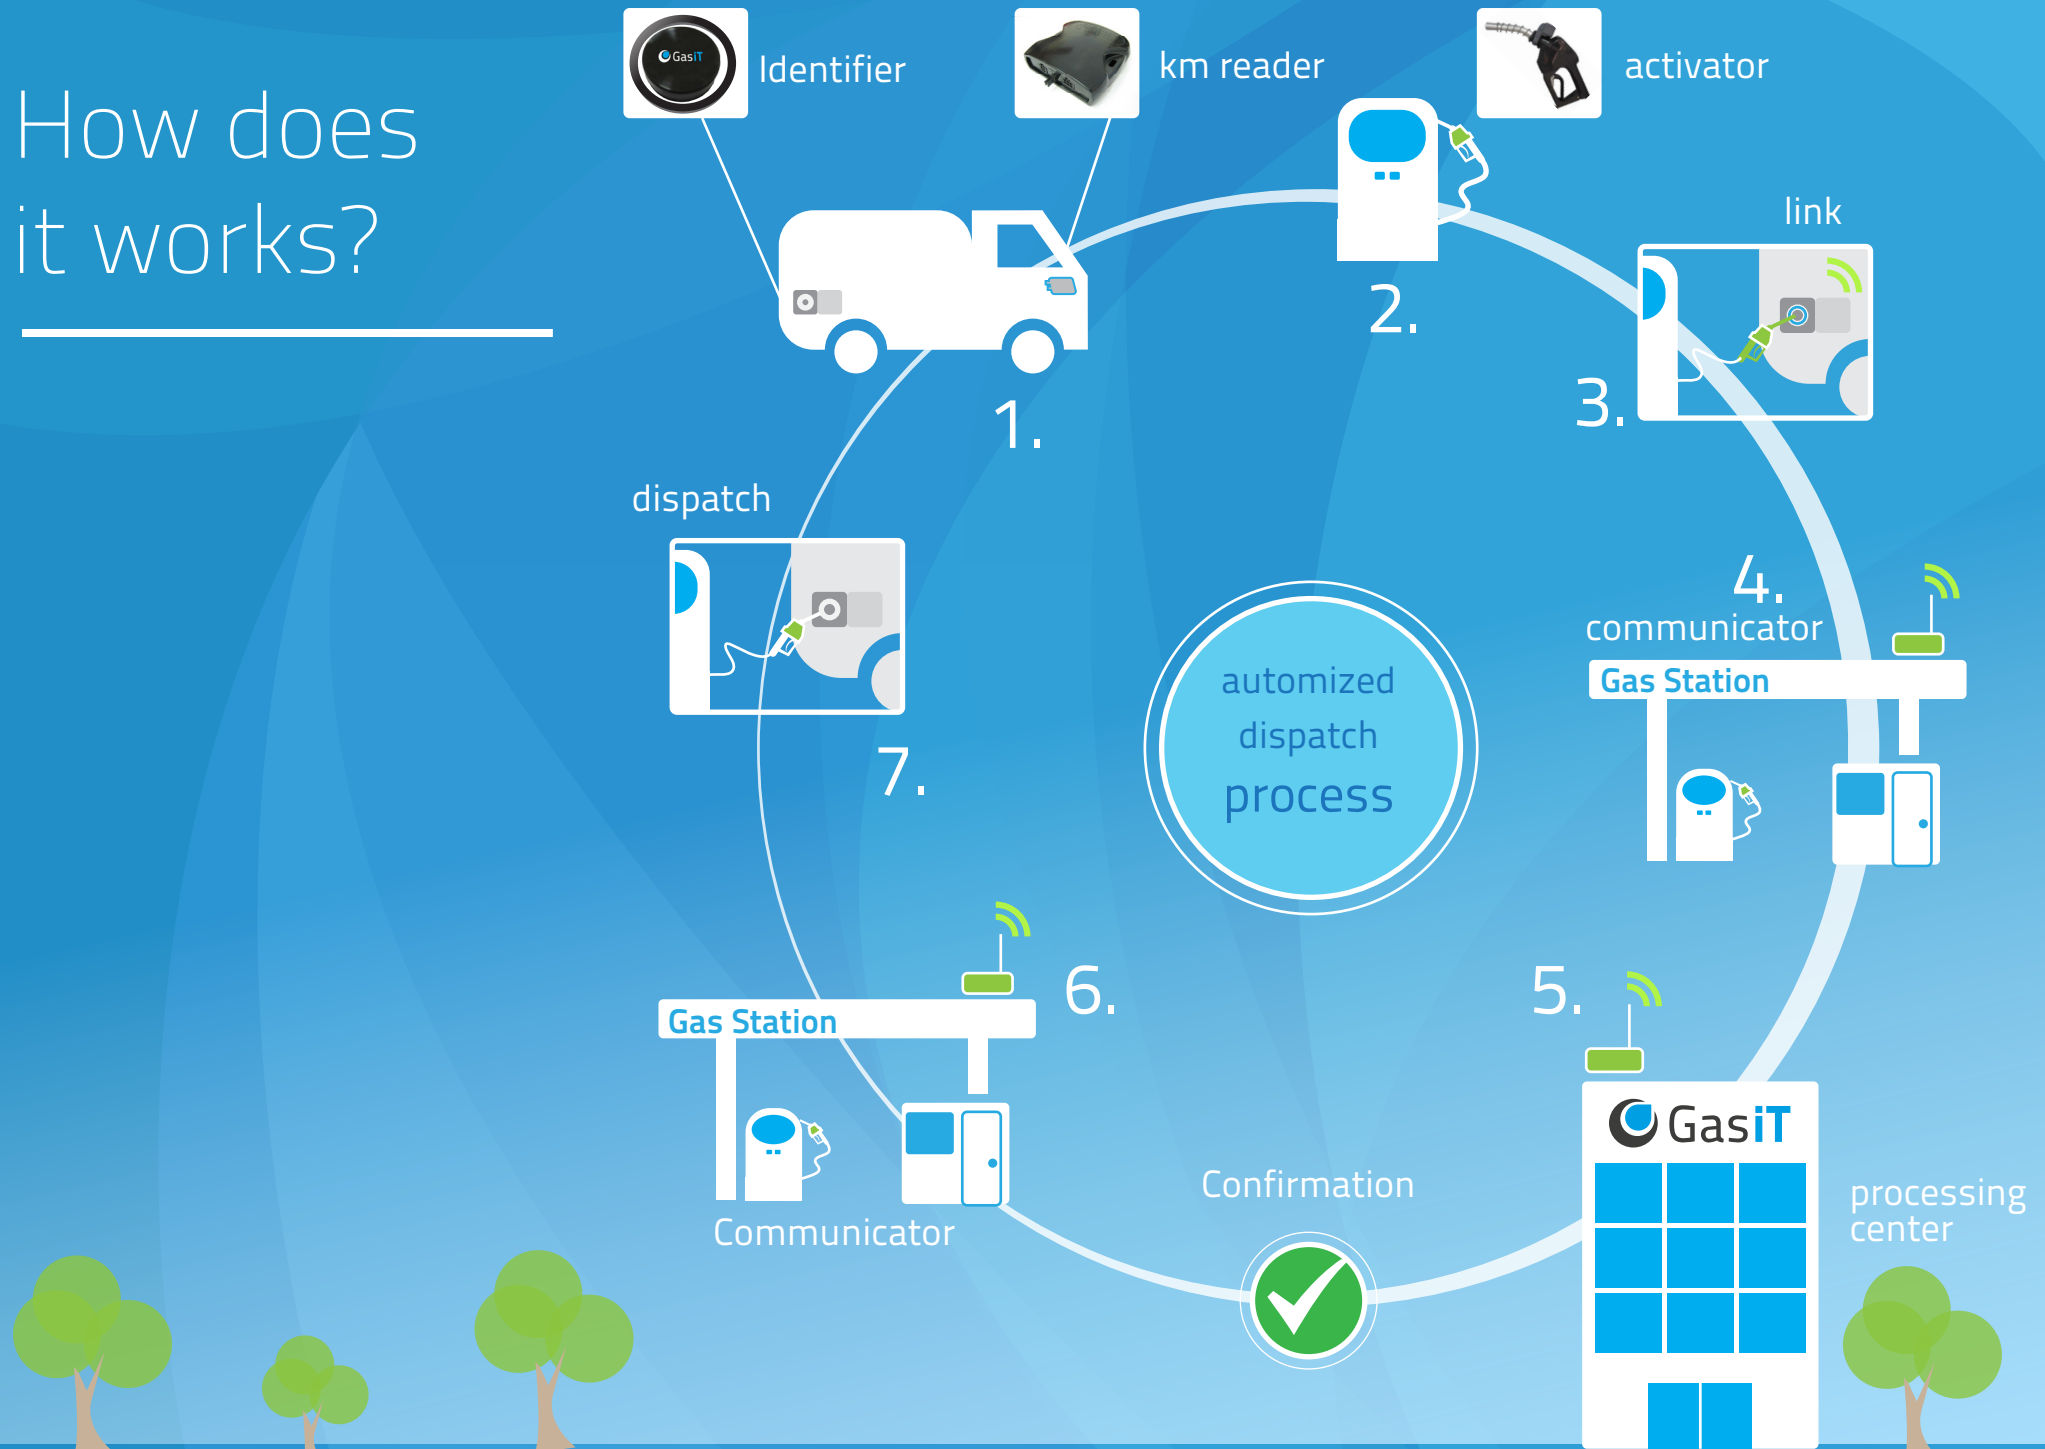

- Through the network of petrol stations GasiT is formed, the fleets of companies shall be supplied throughout the country.
- Using our electronic identifier, ensuring customer savings, control and efficiency in managing its fleet units.
- Management of daily loads, maximum amounts in quetzales or gallons, days and hours of consumption, fuel, etc.

Gas Stations

- Gas stations network affiliates to GasiT, have a total control system of the station.
- significantly increasing their sales through our technology and customer loyalty programs.

How does it work?

Loyalty Systems

Loyalty Systems

Productos

Barcode and Reader

The barcode works as a sophisticated identification media, allowing to manage and maintain fleets control and performance.

Magnetic Stripe Card

It works like cash with a specific gas consumption limit, allowing to have an exact and reliable control of it.

Loyalty Systems

Products

Ring

The ring is an antenna that is installed in the nozzle of the tank. Is connected to the handle and is detected by the trigger installed in the hose.

Identifier

The Identifier is an identification device mounted on the vehicle it authorizes the usage of the dispenser.

Mileage reader

It captures the odometer reading, engine hours and/or vehicle.

Equipment & Software Installed in the Gas Station

Gas Stations

Products

Activator

The activator is a wireless device installed in the pump gun.

Its function is to activate the ring and the Identifier installed on the vehicle.

Communicator

It's a wireless transceiver installed at the gas station.

Its function is to receive the signal from the vehicle devices and link them with the station and the processing center.

Software

The software package installed on in the station allows to administrate the pumps, tanks, outlets, scheduled tasks, billing, and generate more than 150 reports.

P.O.S

Allows you to pay for fuel delivery using the magnetic stripe card.

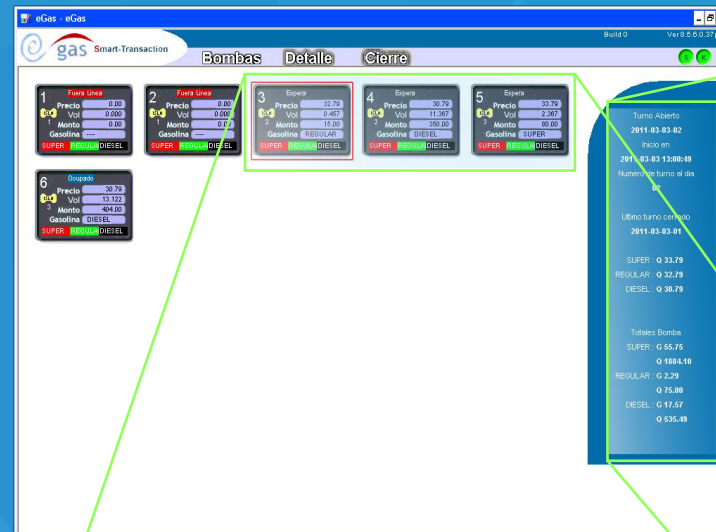

Suite GasiT

Control over dispensaries

with eGas ® to have control of dispensaries across the interfaces of each brand or using our Smart Link which performs the same functions but at a very low cost.
